Date: Tuesday, 8 May 2018, 17h

Place: IRH-ICUB (1 D. Brandza Str.), conference room

Alina Cristina Chivu

Faculty of Psychology and Educational Sciences

University of Bucharest

Alina Cristina Chivu is a PhD student in psychology at the University of Bucharest. Currently she also works as a clinical psychologist and she is an affiliated member of the Cognitive Clinical Sciences Laboratory from the Faculty of Psychology and Educational Sciences at the University of Bucharest. Her research interests include cognitive mechanisms that underlie the anxiety disorders, and computerised interventions designed to modify them.

Cognitive Bias in Mental Disorders

Cognitive biases play an important role in developing and maintaining mental disorders. I intend to present during this seminar: (a) the most common cognitive biases, (b) the mental disorders associated with them, as well as (c) the computerised interventions developed to modify and evaluate these biases.
